Letter of Recommendation
for Yuri Cristiano Mascarenhas Diógenes

To Whom It May Concern

Yuri Diógenes worked for Sigma Home School between 1998 and 1999. He started writing technical books on subjects like Windows NT Server and Delphi. He taught courses of Networking Essentials and Windows NT Server and developed all classroom material of these courses.

During this period he administered the project of implementation of Internet in the 5 Sigma Branch Offices, which include installation of Microsoft Windows NT 4 Server and Microsoft Proxy Server 2.0.

He is a hard working and level-headed person, a pragmatic planner, and is always alert to individual and politics sensitivities. He always looked for ways to improve the company and always highlight the importance to the company be a Microsoft Certified Solution Provider and effort to certify our technical professionals.

We wish him luck in the new country and we recommend Yuri Diógenes to you without reservations.

Sincerely,

Márcio Vitor Melo Soares

CCNA, MCSE, MCSA
