Letter of Recommendation
For Yuri Cristiano Mascarenhas Diógenes

To Whom It May Concern

Metalic was founded in 1996 by the Steinbruch family and acquired by CSN in 2002. It is located in the industrial district of Maracanaú, on the outskirts of the city of Fortaleza, in the state of Ceará. In July 1998, Metallic made a technology agreement with SL-CCE, the world leader in manufacturing technology for two-part steel cans, which gave Metalic access to a modern research and technology.

In 2001 we needed improve a better messaging system and upgrade our infrastructure from Windows NT to Windows 2000. We contracted LanLink Informatica to do these jobs. Yuri Diógenes acted as a Technical Support member of a team responsible for planning and migration from Exchange 5.5 to Exchange 2000. In this project the following technologies was used: DNS with Zone Integrated to Active Directory, Exchange 2000 Routing Group Connectors between Sites of Exchange 5.5 that remaining in the environment, Connection Agreement and SMTP Connector with Internet.

During the project that occurs from June 2001 to September 2001 he demonstrates expertise and responsibility in all situations of the project. Our project finished according fixed, and our experience with him has been consistently beyond expectations.

I have no hesitation in recommending Yuri Diógenes to you highly.

Sincerely,

David Costa Vieira
